

# ENGAGING TEAM MEMBERS: Continual Improvement System™ Huddles

Focus and engage your team members in achieving goals, identifying problems (daily), joining in solving problems and implementing improvements. Team Continual Improvement System™ (CIS™) process and huddling around the CIS™ board is a fantastic way to increase adoption of improvements more quickly and sustain more improvements longer.

## BENEFITS:

- Increased engagement and involvement of all team members.
- Engage everyone to easily, visually, and independently understand the status of the team's efforts.
- All team members understand and are focused on achieving team goals.
- Increased effectiveness of solutions.
- Increased team morale and pride.
- Increased adoption and compliance to improvement.

**Who Should Participate:** Process owners, Team leaders, supervisors, or managers.
